

Dear Team Captains & Faculty advisors,

Greetings from SUPRA SAEINDIA!

I am glad to inform you that Supra SAE INDIA 2012 will be organized in Buddh International Circuit (BIC), Noida from 6th – 9th September 2012.

The detailed schedule will be intimated later.

Further to my previous letter about the possibility of conducting the SUPRA SAE India 2012 in BIC, Noida, we received overwhelming response and excitement from most of the students.

Few of the students mentioned about the schedule would be inconvenient for the final year students as they would go for higher studies abroad or join industries.

I request you to block your dates now and plan to participate in the exciting event. If you need any support required from outside, let us know. Also, we need to have involvement of lot of prefinal and 2nd year students for making this vehicle and participating in the event.

I also would like to inform that Maruti Suzuki has started dispatching engines to your college address and all team teams would be receiving it in coming days. You can find attached the address to which the engines are being dispatched. You need to ensure that you receive the engine from this dispatch address.

I understand that you are rigorously working on fabricating the vehicle. To help you more, we would be organizing a power train workshop & vehicle dynamics workshop in the month of may.

This will be intimated shortly to all of you.

Wishing you all the best.

N. Balasubramanian
Convener, SUPRA SAEINDIA 2012
