# About SUPRA SAEINDIA [Formula Student Competition]

SAEINDIA, a strategic alliance partner of SAE International with over 50,000 members, organizes innovative events modeled on international standards for student competitions.

SUPRA is a premier national-level engineering competition inspired by Formula SAE. The last edition, held in October 2024 at Buddh International Circuit, saw participation from over 60 teams and 1,500 students from engineering colleges across India. Participants design and build high-performance race cars that meet stringent global standards for design, safety, and performance.

The upcoming 12th edition, scheduled from 13-16 August 2025 at Buddh International Circuit, Greater Noida, continues SUPRA's legacy. The event features both Internal Combustion Engine (ICE) and Electric Formula Vehicle (EV) categories, providing a platform to showcase engineering talent and innovation. It also facilitates connections with industry leaders, including CV and EV manufacturers, component suppliers, software developers, and tire companies.

Maruti Suzuki, the long-standing title sponsor, reaffirms its commitment to supporting the next generation of automotive engineers.

## Event Highlights:

- **Unique Experience:** A platform to interact with industry leaders and gain practical automotive engineering insights.
- **Diverse Challenges:** Teams compete in areas like design, manufacturing, and on-track performance.
- **Competition Structure:**
- **Technical Inspection:** Safety scrutiny, tilt test, noise test, and brake test.
- **Static Events:** Cost analysis, marketing strategy, and design presentations.
- **Dynamic Events:** Acceleration, skid pad, and autocross.
- **Endurance Run:** Testing vehicle durability and extended performance.

SUPRA is more than a competition - it's a celebration of innovation, engineering excellence, and collaboration, shaping the future of the Indian automotive sector.
